

BLADE

A HIGH-PERFORMANCE CUTTING TOOL SYSTEM DESIGNED BY BID, OEM AND MANUFACTURING EXPERT

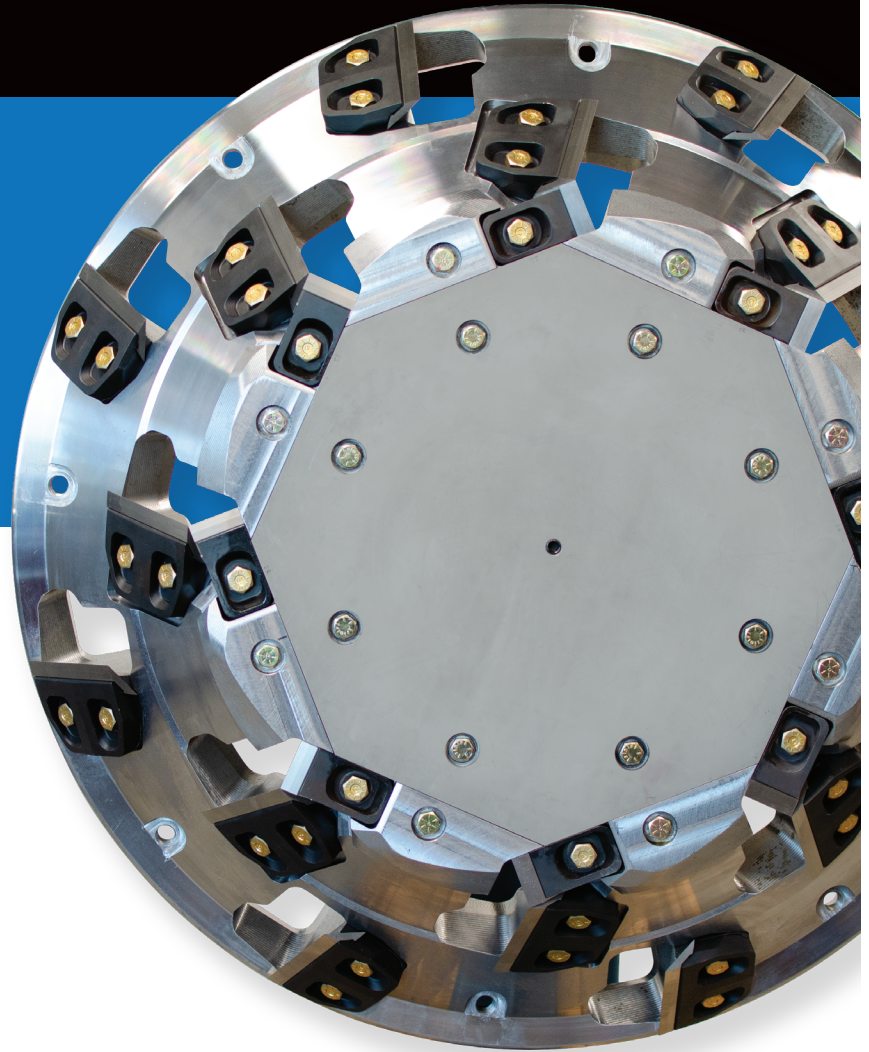

Long hours of research and development have led BID to create the most advanced disposable knife on the market, with excellent abrasion and impact resistance. From steel composition to ease of maintenance, no detail has been overlooked.

HIGHLIGHTS

- Fast and accurate blade positioning thanks to unique clamping design
- Best surface finish leading to superior grading and fuller board length
- Durable edges
- Reduced cleaning time of contact surfaces
- Reduced operating costs

WHY CHOOSE BLADE AND BID GROUP

- 24/7 fast and responsive support
- Committed BID representative to work with you on site
- Unrivalled know-how
- Cutting-edge manufacturing processes for high quality and product uniformity

IN OPERATION

More than 200 chip heads currently in operation

Unlike other competitors, BID is an OEM and a manufacturing expert. We know knives, but we also know the equipment being used and have the expertise to find the cause of the issue quickly, if any.

LEADERS IN OPERATIONAL LIFECYCLE EXCELLENCE
