SIMPLIFY TRAINING. SIMPLIFY COMPLIANCE. TRACK EVERYTHING.

TargetSolutions delivers innovative and easy-to-use cloud-based applications for scheduling, delivering and tracking training and compliance. With TargetSolutions you can manage SOPs and generate detailed reports. It's all possible with the ultimate tool online training management system.

This is how you manage compliance in the 21st century.

- Schedule Training
- Deliver Training
- Track Training
- Report Training

Track Job Performance Requirements

There are many components that make up JPRs. You know how difficult it can be to keep track of records as a department member completes their requirements. Use TargetSolutions' records management system to track progress through any type of JPR.

Reduce Carbon Footprint

Save on fuel and keep your trucks in the station - not at the training division - by having department members complete training online. Reduce paperwork by managing SOPs with TargetSolutions.

TARGETSOLUTIONS BY VECTOR SOLUTIONS

> TargetSolutions is firefighter-friendly. The platform's simple navigation and design are easy for everyone to use – even firefighters who aren't as tech-savvy."

Russ Lloyd, Safety & Training Officer
Sarnia Fire Rescue Services (Ontario)

Ensure Every Hour Counts.

If you are not documenting your training, there is no way to prove it took place. TargetSolutions' powerful records management system tracks all types of online, drill-yard and instructor-led training activities.

SOP & SOG Sign Offs

Simplify the delivery of your standard operating procedures and guidelines by using TargetSolutions' online system. Electronically deliver SOPs and SOGs and get digital verification your members are in compliance.

Streamline Training Management.

No matter the size of your agency, managing training is a challenge. With TargetSolutions you can easily distribute training, make sure everyone has received it, and track when assignments are completed.

Save Time and Money.

With 24/7 access to TargetSolutions, you will slash off-duty training sessions. You will cut fuel costs and wear-and-tear on vehicles. You will decrease out-of-service working hours and increase classroom availability.
